

> Hi Tech

A hi-tech partner for the Hi Tech industry.

The strategy for success in High Technology companies is enhancing flexibility, improving cost effectiveness, shortening cycle times, reducing time to market, and offering superior service. To achieve this, firms must collaborate efficiently and effectively with all the players of their virtual supply chain. Zanett has enabled dozens of High Technology firms to successfully manage their dynamic growth with our business solutions.

> Improve Visibility into Your Business

Managing a global supply chain effectively requires efficient business processes. We can help by automating your manual processes and providing you with better visibility across your organization – the key drivers for achieving scalability and sustained profitability.

Create an Agile Supply Chain

Delivering quality products via an outsourced supply chain requires precise planning and collaboration with your suppliers. Zanett can help you share forecasts, order-commitments, and component availability across multiple enterprises.

Manage Product Configurations

Without the right tools, configuring products to customer-specific needs is extremely difficult and often results in missed promise dates and expensive rework. Zanett has solutions that seamlessly integrate your engineering, ordering, and manufacturing processes so you can focus on your customers.

Streamline Reporting and Analysis

Zanett's exception-based reporting and business intelligence solutions provide you the visibility necessary to make timely, effective management decisions.

> Bring your Customers into Focus

Businesses are increasingly entrusting High Technology companies with their most important business from sales through support, builds their loyalty and functions. A single failure can have a significant financial impact. Understanding your customers' specific needs, from sales through support, builds their loyalty and commitment to you and your products.

Grow Your Service Business

Let Zanett enable you to respond quickly, effectively, and in a coordinated manner to customer problems. With our integrated service planning and execution solution, your service profits will grow.

Improve Sales Visibility

Customer loyalty is built with consistent, high quality interactions. Full visibility into customer history and trends allows your customer-facing resources to drive additional revenue. Zanett's role-based dashboards can make it happen.
